

Read the text and choose : True or False.

Dolphins live in water but they are not fish. They are mammals. They need air. They can stay under the water for many minutes but then they must go to the surface. Dolphins like warm water the best.

Sometimes they swim close to ships. They jump out of the water again and again. They can swim very fast – up to 55 kilometres an hour.

There are small dolphins and big dolphins: some are two or three metres long. Dolphins are not dangerous. They are very clever animals and they love playing. They have smiling faces.

Dolphins are fish.

Q.1

- True
 - False
-

Dolphins can't stay under the water.

Q.2

Yesterday Paula helped her mom. First she washed the dishes, next she cleaned her shoes and then she played with her brother, Jim.

She walked to the supermarket and she carried home two heavy bags.

"Thank you, Paula. You're a good girl", her mom said.

Paula's mother was happy. She had a surprise for Paula.

"These are for you", she said. "Two tickets for the puppet theatre."

"Wow, that's fantastic!" Paula said. "I can invite my best friend Helen."
